Linda,

It is important to know that this data will only reflect those we serve who have been ticketed for a violation. When we think of people in the community who may have been served, we should also consider the victims (if there are any) and the other people within the neighborhoods (let's say someone was charged with disorderly conduct) who may have been affected by the violation.

Let me know if there are any questions about this data.

S-

Subject: Reminder: I have not yet received your department report relating to 53206 zip code services

I had e-mailed on Monday about the attached report being due at the request of the Common Council. To date, I have not yet received a report from your department. This item will be discussed at an upcoming Steering and Rules Committee meeting and all departments should have submitted reports for Committee members to review prior to the actual meeting.
Thanks - Linda
