Subject: Follow Up from Public Safety meeting

Ald. Bauman,

I was reading WTMJ's coverage of the committee meeting from this morning and I empathize with your frustrations toward MPD. It's crazy to me for them to claim their short staffed when the 2025 budget gave them 178 staff positions per aldermanic districts to work with, significantly more than any other department and even beating the election commission with their numerous polling place staff.

I'd bet that each Alder would be more effective at maintaining public safety in their district if they were each given a 178 person staff dedicated to it.

Thanks,
Aaron Moriak
