October, 8, 2003

On October, 1, 2003 the River wood apartments located at 1200 E. Singer Circle were flooded in the basement area by sewage back up that was as result of the city sewage system. This resulted in two to three feet of water and sewage in the central area of basement. The city was on site repairing the problem on the 2nd, 3rd and 4th as a result personal property stored in the basement area of several residents was damaged or destroyed by water and back up sewage.

On October 8, 2003, confirmed by calling (414) 286-3427 that there was grease back up in city sewer.

The following are individual claims for damages and or loss of personal property.
