(414) 737-9777

CITY OF MILWAUKEE
04 APR -7 AM 10:14
RONALD D. L. LONIGAN, JR.
CITY CLERK

Mr. Perkins is filing a claim against the City of Milwaukee for towing and destroying of his 1988 Ford Taurus and the contents in the trunk .On 1/20/04 this car was parked on the even side of the street, which was correct side for night parking .This vehicle was my work car , with all of my tools in the trunk of the vehicle and not an abandoned car . On 1/22/04 I went down to the city -tow lot to see why my car was towed and how much it would cost to get my car back . I went back to the city lot three weeks later to pick up my car and I was told that my car was destroyed .I was told that the city mailed out a letter out to me but I never received any letter . I'm seeking damage for my vehicle and it contents .

Model Number: 50
Weight: 3005

Value Explanations

The free consumer values on NADAguides.com are based on the Consumer edition of the N.A.D.A. Official Used Car Guide ©, and should not be utilized for industry purposes. The consumer values may vary from the N.A.D.A. Official Used Car Guide values presented to you by insurance companies, banks, credit unions, government agencies and car dealers due to vehicle condition, regional market differences and frequency of updates

Low Retail Value

A low retail vehicle may have extensively visible wear and tear. The body may have dents and other blemishes. The buyer can expect to invest in bodywork and/or mechanical work. It is likely that the seats and carpets will have visible wear. The vehicle should be able to pass local inspection standards and be in safe running condition. Low retail vehicles usually are not found on dealer lots.

You have used

An average retail vehicle should be clean and without glaring defects. Tires and glass should be in good condition. The paint should match and have a good finish. The interior should have wear in relation to the age of the vehicle. Carpet and seat upholstery should be clean, and all power options should work. The mileage should be within the acceptable range for the model year.

An Average Retail vehicle on a dealer lot may include a limited warranty or guarantee, and possibly a current safety and/or emission inspection (where applicable).

High Retail Value

A high retail vehicle should be in flawless condition. All power equipment should be functional. The paint should match and have a high gloss finish. The carpet and seat upholstery should be clean and have minimal wear. The engine should start quickly and run smoothly. The tires should be like new with a spare and jack. The mileage should be significantly below the acceptable mileage range for the model year.

A high retail vehicle on a dealer lot should be fully reconditioned and is likely to include a warranty, guarantee or manufacturer certification and current safety and/or emission inspection (where applicable).

Retail Value

\$1,555

The Kelley Blue Book Suggested Retail Value represents the amount an auto dealer might ask for a specific vehicle. The Suggested Retail Value is a starting point for negotiation therefore the actual sale price will vary. Popularity, condition, warranty, color and local market conditions will be factors involved in determining a final price. This retail value is not a trade-in or private party value.

This Suggested Retail Value assumes that the vehicle has been fully reconditioned and has a clean title history. The Suggested Retail Value also allows for advertising, sale commissions, insurance and other costs of doing business as a dealer. Most vehicles being offered at this price have passed an inspection and some may carry a warranty.
