The owners need to replace an old (original?) wood screen door on the back of the house, second floor located off what is now the master bedroom (Pics A. & B.) The current door has deteriorated beyond repair but, more importantly, offers little, if any, in the way of security to the home and the occupants. (Pics C., D., E., F.)

The proposed replacement screen door is a metal security door in a common style that will blend in with the architecture of the home. (Pic G. ). We are currently in the process of painting our home and the door will be painted the appropriate trim color.
