

September 4, 2020

We the undersigned petitioners are opposed to the proposed Expansion of the Historic MLK BID#8 (or any near future name changes) presented to the CPC and other entities for several reasons which include the undue hardships due to the current and unforeseen future of the COVID pandemic and its socio-economical impacts, lack of communication with residents and business owners alike whose life and death concerns for themselves and families are not taken into account at this time, lack of mailing to residents impacted by the expansion, access to information and education, and the undue hardships of taxes, gentrification, psychological loss and grief of a person and tight knit community, and what appears a rush job in preparation of urban planning, financial household impact, gentrification, and infrastructure impacts. In addition, the lack of a sunset period and evaluation by residents and business owners alike is an essential element. For these and other reasons, we oppose any expansion of the Historic MLK Bid #8 beyond its current boundaries of Locust and Mckinley. We also feel that equity in the creation of the BID was denied. If a petition for it is accepted then a petition in opposition without having to miss work must equally be accepted to ensure democratic rights: especially during these critical times.
