

As a former resident of the James A. Peterson Veterans Village and a participant in the Veterans Outreach of Wisconsin food pantry, I have been truly blessed. When I was at my lowest the Outreach was there to assist me. I not only had my physical needs met such as food, clothing and shelter, I was placed in programs that gave me the confidence to return to society as a whole person. I only hope that other Vets can be afforded the opportunity to make their lives better through the programs at the Veterans Village.
