RE: Budget 2009 – Constituent Contact Summary Regarding Libraries

My office has received a significant number of contacts regarding the closure of Tippecanoe library, Villard Avenue library and the overall library budget. Attached you will find a complete inventory from each contact vehicle (excluding phone calls) and below is a tally of the number of contacts received from each contact vehicle. Contact vehicles include – calls, e-mails, letters, postcards, and petitions.

- Calls (135)
- E-mails (43)
- Letters (12)
- Postcards (475)
- Petitions (1,288)

Based on the tally, I estimate the total contacts to be **1,953**

MAYOR'S OFFICE

Dear Mayor Barrett,

I am writing to inform you that on Thursday, September 4, 2008, the Town of Lake Neighborhood Association, consisting of 2100 homes with approximately 4600 residents, voted to go on record in opposition of the closing of the Tippecanoe Library. This is the first official act of this association. The rumored closing of this library is the catalyst that brought neighbors together to form this association.

The Town of Lake Neighborhood Association boundaries are from Holt Avenue on the north to Layton Avenue on the South and Howell Avenue on the East and 6th Street on the west. We have encouraged members of this association to contact your office by phone, email, mail, and petition to oppose the closing of this library. It is the position of this association that the closing of this library will adversely impact the lives of neighborhood residents and reduce the quality of life in our part of the city.

As a residential neighborhood, we are parents whose children use the library for school work and leisure reading. We are elderly persons who have lived in this neighborhood for more than a generation and have no other way to access library services further from our homes. We are citizens who pay property taxes and increased fees for less city services every budget cycle. Too often we are ignored because we have remained silent and unorganized. We cause little impact on the city in the cost of crime abatement and community programs and therefore it is taken for granted that we will not organize in opposition to continued diminishing resources in our neighborhood. We are resolute that this library must remain open in order to protect the quality of life in our community.

In addition to this letter, we will organize a large and vocal contingent to attend the public meeting on October 13, 2008 should you decide to continue efforts to close Tippecanoe Library. We recognize that politics dictates your actions and we will do everything we can to avail ourselves of the political process so our voices will be heard on this issue.

Thank you for your attention to this matter and considering our position.

Sincerely,

Paul Gessner

Kenneth Tyborski

Dear Mayor Barrett:

I wholeheartedly believe that communication with elected officials is essential in order to allow them to know those items that are uppermost in the minds of the public, as well as exactly where constituents stand on certain issues of import. That is primarily why I am producing this letter.

I understand that the content of your future agenda determines the continuing availability, and perhaps even the closing of some of our neighborhood branch libraries, namely, Tippecanoe Library, which is closest to me. Sir, I would like to express the fact that am taken aback, and appalled at the very prospect of this most misguided proposal; please reconsider!

There are dozens of services that these branches provide, and at the ease and convenience of offering them at the community level. Some of these services include reading and research, children's programs, government information and forms, and computer kiosks, which are always so well utilized that there is often a significant wait to use one. These services must remain intimately connected to our communities, as they accommodate children as well as the elderly, who may find it difficult to travel far.

There is also the consideration that these facilities are underused. Other library systems have instituted more progressive programming, and introduced it to the community. Public forums can be set up to provide discussion of neighborhood interest, such as block watches. Community education programs can be instituted touting such subjects as pc operation, tax preparation, financial education, and resume services. Speakers can be invited to speak on various subjects of interest. Many offer to do so free of charge. Small seminars can be promoted where subjects can be explored in more detail over the course of several sessions. Could printing and fax services be offered? Perhaps high tech communication services could be offered for business professionals arriving in Milwaukee from the airport. Many of these suggested options could be offered on a fee type basis, thus responding to some the fiscal needs of the branch. Perhaps the Legislative Reference Bureau can provide even more options that I did not think of by querying other communities.

It seems to me that branch libraries, and the various services that they provide are, in fact, an essential cornerstone in the popular concept of "new urbanism". They are a community based service provider that brings the neighborhood closer together as services are utilized. Regardless of whether any of these options are adopted or not, always remember that advertisements sell. I remember television ads from the seventies, what happened to them? Get the word out that these facilities offer certain services, and you will begin to realize just how many people are interested in specific services offered at these local, neighborhood libraries. Please keep these branch libraries operational. Thank you for taking time with a concerned constituent. This issue is extremely important to me.

Theresa Hirtzi

Dear Mayor Barrett,

I will be 71-years old next month with arthritic knees and other health problems, but I forced myself to get the enclosed names on the Petition Form (80 names) to let you know that we are opposing the closing of Tippecoche Library as well as the other 3 libraries. Some people were not home at the time I made the rounds.

We feel that if the City of Milwaukee can come up with money for all the various what-evers, such as the "midnight basketball" then you should fund an educational institution such as our beloved Tippecoche Library.

Sincerely yours
Theresa Hirtzi

Milwaukee, WI 53202

Dear Mayor Barrett:

I am writing about the potential closing of 4 neighborhood libraries (out of 12) including Tippecanoe which I use on a weekly basis.

At a recent neighborhood association meeting, the alderman inferred that "raw" usage statistics and possibly updated building needs would greatly influence the choice of libraries to be closed. The statistics cited did not take into account the variations in open hours (see copy of 2008 library hours schedule). More open hours should result in greater utilization statistics.

Libraries are a major anchor in any neighborhood. A young mother with a child in a stroller indicated she selected housing because of the nearby presence of the library. Additionally, no doubt one of the measures of a city's viability is its library system.

Hopefully your staff can obtain information about optimal ways to provide appropriate personnel as you recently did with the fire department by checking with cities of comparable size.

Yours truly,

(Ms) Audrey Galbrovic

July 30, 2008

Mayor Barrett:

I agree that tough times mean scrutiny of all budget items. On page [150.3] I see salary line items for 2 Librarian II's and one Legislative Library Manager totaling \$ 165, 547. As I work in the City Hall complex I know there is an Office Assistant of some level. These items would account for at least \$ 200,000 that could be put into the library budget.

If we are closing branches we must be prepared to look for duplicated services within government. I am sure the LRB does a nice job, but these same positions would be able to serve many more customers sitting in Central Library. I am certain that Ms. Kiley would be able to set up a system where the Legislators would get priority service, and still be part of Central Library.

Please consider this to be in line with what you said last night we should be looking for, ways to cut costs. I will continue to scrutinize the proposed 2009 budget and give you further recommendations.

Thank you for asking for input on how to address this crisis!

Very truly yours,

Michael Marass

Mayor Barrett:

I am deeply concerned over the state of the City Budget, as I know you are.

The thought of closing any libraries is an unthinkable possibility. What will happen to the school child that needs a book, the worker without a job that needs Internet access to be part of the employment pool, the investment already made by the taxpayers in the library system? In a city as impoverished as we are, taking away the service that a library provides is certain to handicap the most vulnerable members of our city.

Librarians must complete a Masters level program that gives them the ability to start in Milwaukee at substantially less than most others who earn a Masters degree. If we lay these individuals off they will leave our city and not come back. We need to value these professionals as the priceless resources they are. Another point you must consider any potential employer will be put off by decreased library accessibility.

Every child deserves a place where his/her interests are valued and nurtured and the library is such a special place. We have seen the county close parks and access to pools. Many city school no longer have librarians running the school libraries. Raising children in Milwaukee is hard enough please do not deprive our children of a future they deserve.

Hard choices in balancing the budget need to be made but closing libraries or laying off the pool of talent there would be nothing less than criminal.

Here are some thoughts on how to balance the budget:

- Charge for additional garbage pickups
- Institute a fee for library cards for those making more than \$30,000 or any city worker to say sixty dollars a year?
- Institute a charge for placing holds, bill the cost generators instead of absorbing the charges for all, child patrons could be exempt from this policy.
- Bill non-tax paying city address [Churches] for snow removal and other city services.
- Is it possible to add a surcharge to sporting event ticket sales to support the city budget? [Brewers etcetera]
- What about a one or two cent sales tax?
- The focus groups that you had two years ago might be a great way to generate new ideas: each library has a conference room to facilitate the type of meeting, a great resource for community groups. I would be willing to help with such an undertaking.
- Are there any federal grants that we can apply for, have we talked to Congresswoman Gwen Moore, Senator Kohl or Senator Feingold?
- Can the School of Information Studies at UWM, suggest any funding possibilities?
- Why do we have two librarians sitting in the basement of City Hall? These jobs need to be at the Central Library supporting programs and patrons; they do nothing to benefit the community at large. The function they do could easily be accomplished with Ms. Kelley's staff at Central Library.

I applaud the job that you are doing Mayor Barrett, but cutting library services or personnel would be a truly bad choice for all constituents of the City of Milwaukee.

MAYOR'S OFFICE

September 22, 2008

Dear Mayor Barrett,

Thank you so much for all the good you do for Milwaukee. I am a life long resident Milwaukee and plenty of my fathers before me. You are doing a fine job! I am pleased to see you taking such a responsible interest in and roll around the housing trust fund issue.

I was really troubled to hear that there was some movement afoot to close some community libraries. Holy mackerel has it really gotten that bad? I though the budget situation was bad when some firemen were eliminated from the employment rolls when we were in the middle of the terrorist threat and if there was an attack with mass casualties there would not be enough first responders.

What kind of message do we send to the rest of the country when the very pillars of literacy learning and enlightenment are removed incrementally from the city due to "budget needs". Frank Zeidler taught himself a good deal at the old Clybourne Street library in my neighborhood (Merrill Park). I am 43 years old and graduated from the School of Information Studies (library School) with my BS in 2005. They taught us a lot about the many many benefits of these community centers even if it is only a place for seniors to come and get out of the heat.

Please please do not let Milwaukee be like the little town in "Its A Wonderful Life" where we turn into a despairing town like Mr. Potters and more into a town like George Bailie's where the city is like my friendly little block here on 26th Street.

Lets take a look at some areas that need some taxing. The bars in what I call the new middle class skid row have cost the city and attracted business to the city. The new bars I am thinking of are around the block near The Village Church where I work at their Interchange Food Pantry. This block is abutted by Edison on the West Water on the East and State and Juneau on either other ends. There is damage that happens in this neighborhood when the people get a couple beers in them and are coming to and from the taverns. There was a really cool sculpture on Edison Street at the eastward end of the Highland Ave. pedestrian bridge. This sculpture was destroyed by tipsy revelers. I am sure the sculpture that looked like a giant toy airplane cost plenty. One company owns four of the largest bars in this area is paying tax but they need to pay more in tax because because of the intrinsic hazard to public property, private property, and enhanced police protection that this district demands. I cannot in my wildest dreams think of a counter argument to this. Tipsy or drunk people do stupid things. People who drink alcohol at \$5.00 a glass or \$1.00 a glass are effected by beer and do unexpected things.

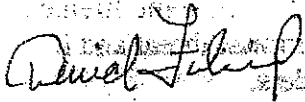

Tax the profitable bars and use the money so our beautiful bright and innocent children have a safe place to go and learn. Seniors like the library to cool off and read the paper. What a cool place to go as a ten year old and have one of librarians read a book to you and your friends. Stories and chapters do

end and if you are a smart little fellow you can pack a sandwich and enjoy that outside with your friends afterwards.

The happiest cops I see are the beat cops that swing through my little neighborhood and are met with smiles. The cops that I see looking on lines of students going in to the Central Library on library day. Maybe I can send you a letter in a few days with some revenue ideas on it. I about jumped for joy when I saw the sales tax is going up so Milwaukee County can keep the prize winning transit and parks we enjoy here in Milwaukee. I loved to see that students were getting the chance to work outside in the parks doing public service, learning to get along together and being responsible.

It takes money to make money. investing in children education and our quality of life make Milwaukee a better place. Thanks for being such a big part of the solution. Maybe the new train station needs a "Noodles" restaurant. Noodles is a good compromise between fast food and sit down eating.

Many warm regards always

MAYOR'S OFFICE

August 27, 2008

Mayor Tom Barrett
Milwaukee City Hall
200 East Wells Street
Milwaukee, WI 53202

Dear Mayor Barrett:

I am a graduate student at the University of Wisconsin-Milwaukee, majoring in Library and Information Science, and I am concerned about the possible closing of four libraries in the city.

While my comments do not hold much weight because I do not live in Milwaukee, I hope you will at least hear me out.

I realize budgets are tight and cuts sometimes have to be made, but I have to draw the line with libraries, regardless of where they are located.

Libraries are not just buildings with books in them. They help people find jobs, open young minds through summer reading programs and story times, and allow people to travel the world from the comfort of their armchairs. In this election year, libraries also provide a place to exercise the right to vote.

In a sluggish economy, a library is the place to be. Patrons can borrow books and DVDs instead of buying them, which in turn saves money that can be used to buy things they need.

It is easy to draw a line through a library on a list, but when that is done, it is also done to their patrons. What was once a convenient location suddenly disappears. The patrons would need to find the next nearest library, but may not be able to travel there. They may not have a car, they cannot walk that far, they may not be able to afford bus fare, or perhaps there is not a bus route to that other library.

Eliminating libraries takes away access to computers from those that cannot afford them and subsequently puts them at a "digital disadvantage." Those users lose the opportunity to learn new skills that would be useful in our information society. Literacy services are

taken away from those who want to learn to read. Seniors lose a place to meet, to volunteer, and to share their knowledge with others.

To quote an article in the August 2008 Library Journal, "the library is a 'playground for the mind' where the product is a better person." We need to think twice about taking away those playgrounds and what will happen to the product if we do.

Sincerely,

A handwritten signature in cursive script that reads "Beth Bland".

Dear Mayor Barrett,
My mother told me that the city is planning to close down $\frac{1}{3}$ of the libraries. I'm 11 and I go to the libraries frequently. I would be very disappointed if that happened. I think that many other kids share my opinion. My parents would be willing to pay 3% more taxes if the libraries continued to function.

Sincerely,

Peter Boyland

Neighbor

There is a strong possibility that because of budget constraints, the Tippecanoe Library is one of the 4 that might be closed down. We have also seen crime gradually increase in our area over the last few years. In the last couple of months alone we have had 2 armed robberies, a suspected drug house on 1st Street opening, gang graffiti, and too many thefts and burglaries to list. Before we lose our Library and the peace and security of our Neighborhoods, we will be looking to form an Association to deal with these and other issues. We need your help! It's not enough anymore to let others decide how our area will be affected by changing conditions. If there are enough of us involved, the workload will be minimal. In the coming weeks another flier will come. It will announce a meeting that will start a new Association. Between now and then, I ask that you think about how you can help keep our area safe and peaceful. Having a Block Watch or an Association in an area has proven to decrease crime.

Before that happens we have an emergency situation with the Library. We only have until the 16th of September to get the Libraries off the chopping block. Once the Mayor presents the budget at that meeting it will be awfully tough to get anything off. Please take a few minutes and call the Mayor's office and ask that they not close any Neighborhood Library. His number is 414-286-2200. You will probably only talk with his secretary or a recording machine, but believe me they will notice. If you can help with future flier distributions or have any questions, please Email me at sjdjmilw@sbcglobal.net

Subject: Fee Increases

Dear Mayor Barrett,

I would much rather pay the modest fee increases recently proposed than see severe cuts in city services. I am particularly concerned about the possible closing of neighborhood libraries. I believe they should all stay open. As public school library services are cut and public transit waiting times increase, it is important that neighborhood libraries remain open. They are anchors in their communities. Vacant houses make a neighborhood look unattractive. An empty library sends an even more discouraging message about a community. People do struggle with their family budgets. Let retailers suffer lower profits rather than the city suffer loss of essential services and quality of life. Sincerely, Nancy J. Pajewski 217 W. Subject: Tippecanoe Library

Dear Mayor Barrett,

It is with sadness that I have heard the Tippecanoe Library along with 3 others are set to close by the end of this year. This has been our neighborhood library for the past 16 years. Should Tippecanoe close our neighborhood will no longer have a library within walking distance.

My family has always utilized the library system starting when we were young and I have passed that on to my son as well. I have a very distinct memory of my first trip to the downtown library when I was 6. I see the same look on the faces of the neighborhood school kids who use the library not only during the school day, but after school as well. Books & libraries have the magic to take us to other lands, meet many people and just get lost for an hour or two or three when the need arises.

With all the talk of our failing schools and poor test scores how is closing four libraries in the city a good idea? In tough economic times we need our libraries even more. My son Andy, like your son is fortunate to go to MUHS for high school where they have a very good school library, but he also spends time at Tippecanoe to study. Books, magazines & newspapers are a luxury to many. The internet service helps those who can't afford to own their own computer. Our library often has people waiting for the doors to open—at times it's been me. It's a great mixture of young, old, middle class and poor---all walks of life use the library system as it should be. When the hours were cut we all adjusted to the new schedule.

The library has given our Tippecanoe neighborhood stability and a community place. It is always busy no matter what day or time I go. When there I often run into someone I know. We don't need another gas station or bar to be built on the corner should the library be abandoned. If it means raising my taxes \$53 a year to keep the libraries open---I'm all for it.

Regards,

Michelle Dwyer

Subject: Please do not close our libraries

Honorable Mayor,

Oklahoma Gardens Neighborhood Association, LLC, is a neighborhood association that serves the south side of Milwaukee. We have approximately 500 homes and businesses within our boundaries. The residents within the Oklahoma Gardens Neighborhood Association, LLC, would like to express our concern over the possible closing of libraries in the City of Milwaukee. The members of our Neighborhood Association would like to see all libraries remain open.

In addition to books and other valuable literature, our libraries offer computer usage time to those individuals in the community who cannot afford to own a computer. This valuable computer time is used for research and for job searches. Also, we have individuals in our community who cannot afford to rent a DVD. Our libraries also offer movies to this section of our community.

We are especially concerned if either Zablocki or Tippecanoe Libraries would close. Members of our community frequent both of these libraries, and we all depend on them.

Please do not close our libraries. The continued education of the citizens of Milwaukee is at stake.

Best regards,

Wendy Safran

Our meeting at the Water Tower last night was quite a discussion on the state of the neighborhood and the city. We had a roomful of residents that had come to hear about the possible Library closings, and the Community Liaison Officer talk about crime and Block Watches. Instead they got Captain Negrón from District 2, Alderman Witkowski from the Garden District, Alderman Zielinski from the 14th District, and Mayor Tom Barrett complete with his Budget Director Mark Nicolini. We ended the meeting with the good Captain updating us on what's going on with Crime in our area. I'll save that and add it to the notes on next weeks Crime Analysis Meeting.

The Mayor started out by congratulating us on getting his attention. His office received over 800 phone calls on the Library Issue. Since word travels slow and we still have people out circulating the petition, that number I'm sure will creep up to 1,000. He then went on to explain how we got to this point. A big part of it was the State freezing shared revenue 13 years ago. This would be the money the State gets from Sales tax etc and gives each city back a portion of. The money that is unavailable from that, due to the freeze is \$61.1 million. That would be the inflation adjusted total. If you combine that with \$27 million in wage and benefit increases, a \$3.2 million energy increase and an assortment of \$20 million in other negative factors, we end up with a \$35 million shortfall. This total comes after a revenue increase of \$15.5 million is added in the mix. We can't make up the shortfall through property taxes. The state has us locked in. It has to come from fees. Why should we support the fees? How will we benefit from having them raised?

We can avoid painful cuts. Here is what the city would have to do to save this money.

The Police Department would have 56 fewer cops. That would save \$3.4 million alone. It would amount to losing almost 2 years of new recruits. We found out that the police department accounts for 98% of the tax levy that the city places on your property. This would not make sense except for the fact that we get that shared revenue from the State to cover the other bills.

2 libraries would be closed and sold. Savings were found with adjusting the hours of the remaining libraries that would still open. Some would go from 48 1/2 to 45, some from 43 to 45 and the Central Library from 60 down to 54. That saved 2 of the Neighborhood libraries from being on the chopping block as in the original proposal.

The Fire Dept. would reduce all its ladder companies from 5 to 4 and close a second Engine Company.

Support would be ended in Business Districts.

Graffiti Abatement would also lose support.

There would be cuts in street light burn time. Did you know it costs \$16,000 a minute to keep our streets lit?

The pruning schedule would be extended to 1 in every 7 years.

Brush collection would also be affected.

All the above cuts would be avoided and covered by the solid waste fee.

Our Police Chief calls it a "criminal removal fee" since a lot of it affects his department.

It should be noted for those of us that feel that city employees should not

be immune to these difficult times in regards to wage concessions as the rest of us are asked to contribute more, management will not get a cost of living increase. Concessions from the union employees is another matter. Their pay is tied in to negotiated contracts with the city, some for up to 3 years.

It should also be noted that if the State hadn't frozen the shared revenue and kept up with inflation the City would actually have a surplus.

The Mayor has stated at our meeting that he is totally committed to keeping all the libraries open as he is to keeping the 56 Police Officers. The fee increase will cover all the above cuts. How much does that come out to on your bill? \$34 for the year. Of that \$34, the libraries would cost us less that \$2. In fact the sewer, solid waste and the Property tax increase together all come out to 4.83% or \$70 per year. We have suffered service cuts for years with our parks, our boulevards, our streets. How much do we want to cut. I'm sure the city could find some more savings here and there, but I don't know about \$35 million. They are finding new revenue sources, but with the economy we are in it is a slow process. You can probably tell which direction I lean towards. I'll pay the extra to retain the libraries and the cops. I want to keep that graffiti abatement program too. I'm not going to live in a place that looks like a ghetto. I would clean it up myself if I had to. I also expect the city to be responsible with my taxes. We can just as easily get up a campaign to stop wasteful spending if we need to. There will probably be two Town Hall Meetings in early October. One on the North side and one on the South side. Ours will be at Pulaski High School. I hope everyone that wants to keep the libraries open will show up for that one. We need to give our input on this process so we can end this poor choice of cutting costs once and for all. We all agreed on one thing at the meeting. We don't want our libraries closed.

To: Mayor Tom Barrett
Subject: Please save our neighborhood library !!!

Greetings,

A few weeks ago we found out from a member of our Internet Crime Watch Group that our neighborhood library might close by the end of the year. We were shocked. The place is always busy. Sometimes I drive by and there are a couple of dozen people waiting by the front door for it to open, and more in the parking lot. What happened?!?! After contacting our Alderman I found out that there was a possibility that four Libraries would close by the end of the year. The more I looked into it the worse it got. I now believe they will shut down 33% of the cities neighborhood libraries. They say it's all due to a Budget Crunch. All the departments have to take cuts because of rising energy costs among other things. The libraries are short \$2,000,000. Somehow this doesn't add up. Other Departments have to make cuts too, but do they shut down a third of their facilities and services? The only thing this says to me is that they are going to close the ones with the best value. If they will only save \$2,000,000 on closing these 4 libraries were does the rest of the over \$30,000,000 it costs to run the system go?

Our city is sick if we let this happen. Our Libraries are part of the glue that holds our neighborhoods together. In some areas, the Library is not only a positive influence on our children it is the only safe place in the neighborhood after school. In these challenging times our Libraries are being depended on more than ever. Taking a walk to the Library for a good book or a DVD is a treat for some of our citizens. You can go into any Library in the city and find people of all ages and from all walks of life. Why would they want to take such a positive thing away from 4 of our neighborhoods? Why these particular Libraries? You can bet it is because they think these will produce the least resistance. Government works like that. I'm sorry, but this just shows that no one wants to use their brains and start thinking of ways to save money were we could still have access to all of them.

Maybe the City should take down some of the scaffolding they are renting for the soon to be \$50,000,000 City Hall project to save some of that money for the Libraries. They can't need all of it up. Our City has its priorities upside down. We back and finance gambling and pretend not to see the damage it is doing to our people. We put so much emphasis on downtown with the new buildings and condos that we fail to see the neighborhoods around it decaying. At what cost are we willing to save that \$2,000,000 from closing 4 Libraries?

We ask you from the bottom of our hearts, please help us stop this proposal. If you could copy and send this Email to all the people you know that care about this City, it will help so much. Add whatever comments you have and ask them to do the same. Also ask them to Email or call the Mayor's office and their Alderman. Don't expect to get a response, but they will at least see that the citizens of Milwaukee care about the good things they have and the Libraries are at the top of their list.

Thank You So Much,

Virginia Friske
Concerned Milwaukeen

Subject: Proposed public library closings

Dear Mayor Barrett,

I understand that it is proposed to save 2,000,000 dollars, we close 4 or more public libraries. I am shocked and appalled at the suggestion.

I am a teacher at Zablocki Elementary School. We have a small school library from which students take out books, however, I know many of my students use the public library close to us. They use it to take out books and videos, but also to do homework, use the computers and participate in reading programs. To close it, or any other Milwaukee Public Library would be absolutely deplorable.

You must find a way to maintain our libraries. We are worried about the high school graduation rate, yet propose to cut libraries. It is inconceivable that someone actually suggested this, but even more staggering is the fact that you are seriously contemplating doing so!

C'mon! Make budget cuts in another area. Public Libraries should remain open in Milwaukee. It's ludicrous that this is even being considered.

Subject: library closings

Mr. Mayor:

I'm writing to express my concern for the possibility of 4 Milwaukee library closings. I'll be brief and to the point. Libraries are a community asset, and they are already there in place serving adults & children. Everyone says the economy is tough, and they are having trouble affording the gas prices (particularly here in Milwaukee), but the library is FREE, and we cannot close some of them without having a loss in those neighborhoods.

Please keep all the libraries open

Paula Maciolek

Subject: Please don't close Tippecanoe library

Dear Sir,

I am writing to let you know that I feel and so many other citizens that you should not close Tippecanoe library. My daughter and granddaughters can walk over to the library and enjoy all that they offer. They get movies and books for their three daughters. Our youngest one had gone to reading classes and they also did crafts. It was really nice for her to get to know other children before she started school. The other two granddaughters go there for things they might have to look up for high school subjects. So as you can see our granddaughters are all different ages and really need for you to keep the library open.

Please think about keeping the library open.

A concerned Grandmother,

Mrs Joann Golata

Subject: Public Library

I think it's time that Milwaukee starts looking at what these costs are doing to our city. Shutting down libraries is not the answer. What are you doing to the downtown area, namely City Hall that needs all this money to spruce up the area. Everyone is so concerned that we bring in all this extra money for the downtown businesses so conventions will come. What happens to the neighborhoods where our "people" live. Everything is being taken away or let go to ruins like our parks. These are some of the areas that our Milwaukee citizens use. I think it's time that our elected officials start looking at Milwaukee as a city where everyday people live and not a second Chicago or New York

Subject: New Topic-Library Closing

Mayor Barrett,

Don't expect to get any reply from your office as I haven't gotten any in the last tons of emails & phone calls I left with your office regarding the Shell Station problem at 3725 S. Howell. This is a big issue spreading over our entire Neighborhood regarding Tippecanoe Library potential closing. Here is a letter I sent Katrina Cravey at Channel 6(Fox) Linda Jardee, 3714 S. 1st Street, Milwaukee, Wi

Hi Katrina,

I have been working with a large Neighborhood Watch group that is working together with the City of Milwaukee. We have been experiencing more crime, vandalism, graffiti, car thefts, burglaries in our south side area of Milwaukee. A number of people in this Neighborhood might contact you to help. You have helped so very many people in a "bind". The City tries to whatever degrees they can help, but sometimes just not enough.

There have been meetings with our Alderman Witkowski, and the new information is that our Tippecanoe Library that is located on the corner of Howard and Howell is one of the four libraries that the City wants to close.

This is devastating to so many neighbors in the area. My sister, who is an MPS teacher depends on the library, as it is in walking distance for materials for her "kids" at her school; along with books she read to her almost two year old grandson that lives with them. My husband and I frequent the library and we see people of all ages, ranging from very small children, preteens, teenagers, middle aged and elderly all enjoying and learning and gleaning information that will only enrich their lives.

We take the neighborhood libraries away and crime increases amongst our youth. That is just a fact. Another thing, aside from the libraries are the parks. We had a beautiful little park called Saveland Park between 1st Street between Wilbur and Saveland Streets. Kids of all ages used to fish there for something "constructive" to do. The cattails have taken over the whole pond, not to mention an odor emanating from the pond. People have spoken with the head of that particular park district, County Supervisor Chris Larson whose hands seem to be tied. We don't see kids fishing anymore, nor ducks that used to love the pond. Rather, we see teenagers hanging out by the kiddie's area of slides & swings. etc--just hanging out.

The City is constantly talking about the rising crime amongst our youth; yet they continue to chop away all of the areas that either help the youth with growth, education or areas, such as the park, for fishing, etc. to exert extra energy. Our city cannot expect to combat and reduce crime amongst the youth if they continue to take away the things that will make them grow into constructive, productive adults.

There is a large group of constituents in our area that would be willing to talk with you and give this much needed press. Thank you so much for your time.

Linda M. Jardee

Subject: Keep Our Libraries Open!

Mayor Barrett,

As a citizen of Milwaukee I implore you to keep all branches of the Milwaukee Public Library open. We all know that times are economically rough, but that only means that people need their libraries more than ever, and they need them in their neighborhoods. For many people the library provides educational, civic and professional resources, as well as helps to bridge the digital divide by providing people with access to technologies that they might otherwise be excluded from. These are services that Milwaukee needs in its neighborhoods. There must be a more creative solution to the budget problem. Please do the right thing and keep all of the libraries open!

Thank you,
Kristopher Pollard

Subject: Library Closings

Greetings,

It is with a heavy heart and angry mind that I find I must speak up about the proposed library closings. Our libraries are the glue in our neighborhoods, safe haven's for our children's and adult learning opportunities, and frankly, one of the last positive environments for families in our neighborhoods. We depend on our neighborhood library, Tippecanoe, and without it we would not have the means to have our children go to a library but a few times a year. It is enough that the hours and days of access were cut back!

Our crime rate is up, our neighborhood shows signs of deterioration, and it must stop now! Please consider becoming part of the solution to this deterioration, rather than contributing to the problem. The loss of neighborhood resources is one key reason responsible homeowners look to live elsewhere- outside Milwaukee perhaps- and the cycle of deterioration continues.

I find it difficult to believe that there is no other area of city government spending that couldn't be cutback more, or eliminated. I understand it is more complicated than that, however, I also observe that decisions tend to be made along the path of least resistance.

It is not okay to spend thousands of dollars on scaffolding for the city hall building, street median flower arrangements, or other such projects with my tax dollars, and then close my neighborhood library.

City priorities should first consider the welfare, and quality of life for those of us who live here and pay the taxes; that seems to be missing in the decision making here. Please take the library closings idea off the table.

Thank-You for your consideration,
: Linda Balfanz,
Concerned homeowner

Subject: Closing of Tippicanoe Library

Dear Mr. Mayor-

I was frankly shocked to learn of the possible closing of the Tippicanoe library. I have lived in the Bay View neighborhood for 20 years and have visited that particular library for more times than I can count. When younger my children participated in the many wonderful reading programs they have to offer. Going to the Tippicanoe library was always a much anticipated event in our family! I am also a speech pathologist for the Milwaukee Public Schools. I have told parents time and time again that reading to their child and fostering an early love of reading is one of the most important things a parent can do to improve a child's speech and language skills. Access to books and reading programs are CRITICAL to developing literacy skills in children. Without good literacy skills our children can't succeed in life. Do we now tell parents that reading and literacy skills are crucial to learning but by the way only if you live in certain neighborhoods. We all know that some families have to struggle to meet basic needs-should access to books be considered a luxury for the wealthy?! Please consider the importance of our neighborhood libraries and don't close libraries for the sake of a balanced budget. Thank you very much for your consideration.

Subject: Library closings

Mayor Barrett:

As a resident of Milwaukee and in the district of Tippecanoe Library, I am voicing my opinion on the proposed closing of libraries within the city of Milwaukee for budget cuts.

I agree that there has to be sacrifice when budgeting, tighten our belts and all the other rhetoric. We have to do that within our own household. But some things should NOT be considered as expendable in the name of budgeting, and our libraries are one of those things. I see a major gap in reasoning when \$24 million dollars is being proposed to clean up the KK River, but \$2 million will shut down libraries.

Yes, our waterways are important, but so is educating our young and keeping our seniors active - which our libraries accomplish.

With this kind of logic coming out of your office, well, mayoral elections will be coming up sometime in the future.

Subject: Near and dear to our hearts

I think the closing of Tippecanoe Library is one of the biggest mistakes Milwaukee can make. It is closing any library where young and old will get the knowledge they are looking for. Many senior citizens can not afford to pay for books so they use the public libraries. Many families have the same problem where they have children that need that library. Taking something away from a neighborhood is not solving any problems. Try looking right in city hall and see where you can make some cuts there. We the citizens are paying the taxes for these convinces such as the library. It's bad enough that the county is letting the parks go to pot without the city doing the same. Let's find a way to keep these neighborhood libraries such as Tippecanoe so our Milwaukee citizens will have a place to go, especially a school which is right around the corner.

Sincerely,

Rayleen Schultz

Subject: Please save Tippecanoe Library

Dear Mayor Barrett,

I'm not a letter writer, but this time I feel I need to pass along my concerns. My daughter goes to Tippecanoe Arts and Humanities School and they use the Tippecanoe library as their main library because they are so overcrowded their library is very small which is fine at this time because they can use the public library as an additional resource. I'm wondering if MPS can assume some of the costs of the library? It would be extremely unfortunate to have such a wonderful school with such a limited library. Some times when these decisions are made they do not understand all of the people it will affect and in this case it is more than simply closing a wonderful neighborhood library. It would limited an entire school of an extremely valuable resource.

If you are interested in taking up a petition, here are some things to keep in mind:

- The petition must be signed by a vast majority of households— about 70% will show a clear support for your request.
- Only one signature per household is necessary.
- Please survey all households and/or buildings on the block. This is everyone's neighborhood and everyone should be informed of potential changes. (If you can't get a hold of every household, that's fine but don't stop surveying as soon as you reach the 70% mark).
- Please remember that signing a petition does not guarantee your request will be approved. I will most definitely support the wishes of the majority, but I also have to work within the limits of the law.
- Please return the completed petition as soon as possible. If a petition is required, it usually means that the issue has to go before a City committee and then before the entire council before it's passed. To insure a quick response, please submit it as soon as you can.
- If residents have questions or comments, they are welcome to call me at 286-8537.

PLEASE NOTE: THIS PETITION WAS OFFERED TO THE MEMBERS AND FRIENDS OF
TIPPECANOE PRESBYTERIAN CHURCH AT 125 WEST SAVELAND AVENUE,
MILWAUKEE, 53207.

13th District Petition Form

We, the undersigned, oppose the closing of Tippecanoe Library on S. Howell Ave.

Subject: Tippecanoe Library Closing

Dear Mayor Barrett:

It has come to my attention that there is a strong possibility that the Tippecanoe Library will be closing. I am disappointed to hear this, and, as a city of Milwaukee homeowner and taxpayer, **very much opposed.**

Libraries are an important part of the quality of life of a community, and, I believe, an essential service that a city provides, both educationally and economically.

The Tippecanoe Library is near several schools: Tippecanoe, St. Thomas Aquinas, Whittier, and Fritsche Middle School. Many students from these schools use the library as a place for homework after school. As a parent of two children who attend Tippecanoe School, I know the library is also used as a resource for the school as its own library has been forced to be reduced due to budget cuts.

I love Milwaukee and love living in the city. I support you in your efforts to strengthen our city, and consider closing libraries as contradictory to this common goal.

Thank you for reconsidering.

Respectfully,

Molly Noyola

Subject: Possible Library Closings

Dear Mayor Barrett,

Today I received a Neighborhood Alert and did hear about the 2 robberies at Tippecanoe Library while stopping by one day prior to this alert. This truly concerned me being a resident of this Bayview Neighborhood for almost 10 years. If people think that closing these libraries are going to help anything, we might want to think again. It seems like a bandaid for a problem, instead of really getting to the solution and hitting the problem head on. Sure, we might save a few dollars on the city budget but how many families and children are you going to affect if these libraries are closed. The library is a safe haven for many people. How can we combat the burglaries, graffiti, and robberies? We need these libraries to have a place for children to go and learn from the many programs that were even offered this past summer. The people that cause those problems can be changed and rehabilitated. Maybe there are programs that these libraries can have. They have to be even more motivating to entice those groups doing the thefts/burglaries/graffiti than doing the activities that they are currently involved in.

I want to continue to live in what I feel is a safe neighborhood. I feel if you take public funding away and take our local library away it will begin the decay of our neighborhood. My 2 daughters, 5 and 7 years, and myself attended many of the library programs this summer. I loved the Super Reader Program and was truly impressed and shared it with other people all the time. We attended several of the Milwaukee libraries and I would hate to lose any of them. Please save our libraries and help us improve our neighborhoods.

Thanks for serving the Milwaukee people,
Linda Krueger

Subject: The Tippecanoe Library

Hello Tom,

I was recently notified that the City of Milwaukee planned to possibly close down the Tippecanoe Library because of budget cuts. Please reconsider this and keep the building open. I am a frequent visitor and whenever I am in this library, I see all kinds of people from our area using it. Closing this Library down would be a blow to the area and will negatively affect the neighborhood. I would rather have our youth spend their time in the library then causing problems on the streets because they are "bored".

Thank You,

Brian M. Artka

Attachments: LibraryImpactStudyFINAL.pdf

Dear Mayor Barrett,

Attached is a informational study on the benefits of public libraries, specifically those in the Milwaukee area. As residents of the state of Wisconsin, we have a duty to uphold the high standards of education and literacy we currently have.

I hope you'll consider this study in your decision to end over two million dollars in funding for public libraries.

Respectfully yours,

Michael Brumley

Subject: please save the Tippicanoe Library

Importance: High

Mayor,
please let us keep the Tippicanoe library. We use the library on a regular basis and enjoy having the books, computers and resources available to us in our neighborhood! We feel the library helps make the neighborhood a better neighborhood!

Thank You,

Regards

Mr and Mrs Douglas Fischer and Family

Subject: Neighborhood Libraries

Please Mayor Barrett-

Don't close the Tippicanoe Library! This establishment is so very vital to our neighborhood. What a welcoming site it is to turn the corner on Howell Ave and Howard Ave and see an active popular library. Having a library within walking distance of our house makes an evening stroll even better!

Thank you for your consideration!
Jennifer Olen

Subject: Tippecanoe Library Closing

Mayor Barret:

This coorespondence is in reply to the rumored closing of Tippecanoe Library. I would hope that Tippecanoe could remain open, since in my opinion, the facility is always busy and offers great services to the people of this district. I would hope there are other, more reasonable alternatives to this economic situation.

Sincerely,
Ken & Mary Jo Brooks

Subject: Budget Cuts

I just got back from Cleveland, OH. 7.5% sales tax. What is it in Chicago, in New York? We're in a recession, and it's time to decide if we become even more backwards or pay for the services we value. I vote we pay, via a sales tax increase.

I would also gladly pay to help save the library system. Make "Friends of the Library" an option and see if people don't show their support for what matters. At a time when parents are telling their kids they have to stay at home is not a time to close neighborhood libraries. And I don't use them, I just recall how important they were for me as I was growing up.

Sincerely,
Elaine Bergstrom - novelist

To: Mayor Tom Barrett

Subject: Please Protect Our Libraries

Kind Greetings Mayor Barrett,

My name is Jeremy Thompson. I currently live in Cudahy, however I use libraries in Milwaukee. I have been told and read a report in the Milwaukee Journal-Sentinel concerning the budget and the cuts that need to be made. I know that every department is being told that they have to "tighten their belts". Well, I strongly believe that the Milwaukee libraries should have the same public good as the police and fire department.

I know that the police and fire departments say that lives will be lost if they make cuts. Well sir, please think about the lives that will be lost if up to 4 libraries are closed in Milwaukee. Think about the children, the teenagers and young adults who need to use the library to study, research information, join reading clubs, use the multi-purpose rooms for Girl Scouts and Cub Scouts, locate the latest novel, surf the Internet and escape the clutches of the predators in the streets.

You know as well as I, that the people in the streets would love to have more recruits to get involved with dangerous activities even if one library ceases to exist in Milwaukee. We cannot allow even one of these institutions to close. We cannot turn off the spigot of knowledge and the marketplace of ideas that libraries provide. Libraries are a vast universe with multiple worlds. They are community centers where people can come to open and expand their minds. If access is shut off, we cannot blame the children, we can only blame ourselves for the ramifications: 1) voided minds and neighborhoods, 2) children lacking promise, purpose and vision and 3) Milwaukee becoming more and more like Detroit versus Minneapolis.

The choice is yours.

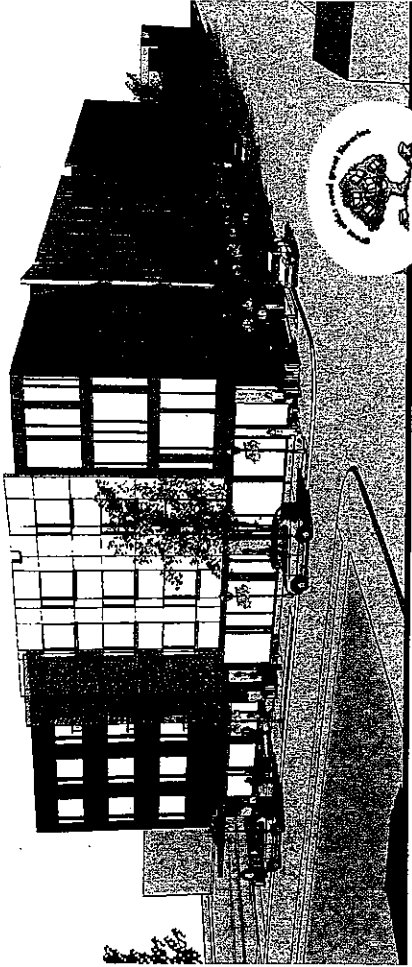

Respectfully,

Jeremy M Thompson
