Subject: Reject the Midtown Data Center!
Date: Friday, May 15, 2026 9:44:13 AM

Some people who received this message don't often get email from sadieschmitt309@gmail.com. [Learn why this is important](#)

To whom it may concern,

As a citizen of Milwaukee I urge you to reject the proposal to allow a data center to be built at Midtown Center. The people of Milwaukee don't want data centers owned by billionaires in our community. The presence of facilities like the one proposed have been proven to cause damage to air and water conditions in the surrounding areas and continually support the replacement of jobs in the community with automation and artificial intelligence while providing no replacement opportunities beyond the completion of the construction.

The proposal to introduce a public library branch and green space is more than welcome. Combatting climate change and degrading ecosystems by creating natural areas in the community is exactly what Milwaukee residents need and want. Additionally, providing the accessible educational resources that are available the public library is so important to the education community.

I urge you to make the right decision and do what's best for the people of Milwaukee, not rich developers.
