

January 14, 2003

To the Honorable,  
the Common Council

Subject: North Interchange/Jobs Corridor Maintenance Agreement

Dear Council Members:

The Wisconsin Department of Transportation (WISDOT) has recently completed the construction of the North Interchange and Jobs Corridor projects. The projects reconstructed the USH 41/45 and STH 100/145 Interchange and various other local streets in the area.

Several City of Milwaukee infrastructure facilities were affected along the following streets: West Good Hope Road between USH 41/45 and North 124th Street, West Bradley Road directly east of North 124th Street, North 124th Street from the USH 41/45 Interchange to Drezka Park Road, West Park Place from West Bradley Road to North 110th Street, the local connector street over the USH 41/45 Interchange between West Park Place and the West Fond du Lac Avenue frontage road, and the West Fond du Lac Avenue frontage road from the local connector street to the Milwaukee County Grounds.

City and WISDOT staffs have drafted a maintenance agreement, which addresses ownership, operation, and maintenance of the various facilities involved. The attached resolution authorizes the Commissioner of Public Works to execute the Maintenance Agreement with the WISDOT which will formalize the various responsibilities associated with this facility.

Very truly yours,

Jeffrey S. Polenske, P.E.  
City Engineer

Mariano A. Schifalacqua  
Commissioner of Public Works
