RE: Communication from JOSEPHINE PURPORA  
C.I. File No. 2025-002014

Dear Council Members:

Enclosed please find a proposed resolution. We ask that it be introduced and referred to the Committee on Judiciary & Legislation, with the following recommendation.

Josephine Purpora alleges that on July 31, 2025, she experienced sewer back up that caused damage to the basement of her property at 3700 West Kimberly Avenue in Greenfield, Wisconsin. Ms. Purpora submitted a damage claim for water mitigation, and repair estimates for her finished basement in the amount of \$25,779.12.

Our investigation, conducted in coordination with Milwaukee Water Works, determined that the water main failure caused damage to the sewer lateral at 6042 S. 37th Street. This damage created an entry point through which debris entered the sewer main. Following the utility's coordination with DPW-Greenfield to clear the sewer, the restoration of water service to the failed main allowed additional debris—including rock and sand—to flow into the sewer system. This influx of material subsequently contributed to flooding that impacted multiple properties in the surrounding area of 6000-6100 blocks of South 37<sup>th</sup> Street and 3700 block of West Kimberly Avenue in Greenfield, Wisconsin.

Based on the findings, it is our assessment that the utility did not exercise reasonable care when restoring water service. Additionally, the failure to maintain the original water shutoff contributed to the extent of the resulting damages. Accordingly, we recommend approval of the claim, with adjustments totaling \$23,858.10.

Very truly yours,
