RE: Verther L. Perry / File Number: 220802

Dear Mr. Owczarski:

Please be advised that this office represents Verther L. Perry in connection with the Notice of Disallowance of Claim you issued in connection with File No. 220802 on October 11, 2022, in the amount of \$5,550.73.

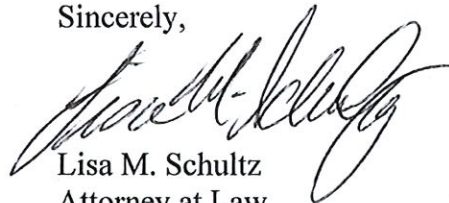

It is our position that the above-referenced Notice of Disallowance of Claim was issued in error given the fact that my client supplied you with written documentation which proves that the damages she suffered were the direct result of a broken City water main located on Milwaukee City Property.

As a result, we are hereby respectfully requesting that you revisit this File and review your decision of Disallowance of Claim. Again, the documentation provided previously by my client clearly establishes that the sole cause of her damage was the failure of a City of Milwaukee water main which resulted in an excessive amount of water flooding the area, including her property, and then leaking into her basement.

We are very confused as to why this claim was denied. Please reconsider this claim and provide to me your response, including the basis of any denial.

As you are aware, there is a short period of time allowed for us to further pursue this with court action against the City, thus your prompt attention to this matter would be greatly appreciated.

Sincerely,

Lisa M. Schultz  
Attorney at Law
