Aid payments are disbursed to municipalities in four equal payments on the first Monday in January, April, July and October. Counties receive 25% of their annual payment in January and October and 50% in July (there is no April payment). The GTA calculation process is based directly on the data your local government provided to the Department of Revenue (DOR) in its annual Municipal Financial Report form in addition to the centerline miles reported to WisDOT in its annual plat submittal. Connecting highways are marked State Trunk Highways through your community. Your 2017 CHA reflects the lane mileage data as of December 31, 2015.

A Calculation Detail Sheet is available for each local government on the GTA home page at <http://wisconsin.gov/Pages/doing-bus/local-gov/astnce-pgms/highway/gta.aspx>

This is your official notice of your local government's GTA and CHA aids for calendar year 2017. Your treasurer will be notified when quarterly GTA and CHA payments are made. All local governments must submit complete and accurate Financial Report Forms to DOR each year. How eligible costs are reported and whether or not the forms are filed on time may have an impact on future GTA payments.

For questions regarding your GTA and CHA estimate or payments, visit the Programs for Local Government home page at <http://wisconsin.gov/Pages/doing-bus/local-gov/astnce-pgms/highway/default.aspx> and choose GTA or CHA. For further questions, contact the appropriate department:
