

Charter School Review Committee

Dear Darrell Lynn Hines Academy,

I am a parent of four children that attends DLHA. My children have attended this school campus for a few years now. I would like to state that this school provides an environment where my children can learn a lot of basics skills, gain knowledge, develop their talents, learn from experts, and meet friends. I feel like teachers play a key role in any student's life. They are knowledgeable on a lot of things, and they should be able to impart a wide array of information and wisdom on specific subject matters, as well as life in general. I do know that this is a safe school environment for my children. Darrell Lynn Hines Academy is a place of happy and effective teaching staff, A fun and supportive school environment, and to be involved and kept in the Loop with children and parents. Therefore, I feel like DLHA's contract should be extended for another 5 years because it's a wonderful place and environment for children to be at everyday to learn.

Sincerely,

Katy Lor
