Harbor District Water and Land Use Plan

- Adopted in 2018.
- The plan envisions S. 1st Street as a welcoming entrance to the Harbor District. It encourages 1st Street to continue to develop as a mixed-use urban neighborhood.
- The plan encourages a transition from an auto-oriented corridor to a more pedestrian friendly, walkable urban environment. Pedestrian activity and comfort should be the highest priority for future developments.
- The plan also encourages additional residential density along the 1st Street Corridor.
- **The proposed amendments to the GPD and DPD align with the recommendations of the Comprehensive Plan.**
