

Samaritan Project, Inc.

Samaritan Project, Inc. (Samaritan) is a non-profit organization created by Christ The King Baptist Church in 1985 to assist underserved individuals in reestablishing themselves in society. Samaritan's mission is to provide quality educational assistance to all individuals enrolled in the various programs through compassion, dedication, and encouragement. Samaritan has resolved that these programs and services be offered at no to low cost to its participants. Therefore, Samaritan relies exclusively on funding from foundations, philanthropists, and other organizations to support its goal to improve the quality of life and build confidence and self-esteem by strengthening the family unit and individual lives.

Mission Statement

We exist to educate adults and youth through programs and services designed to address personal and professional skill development.

Vision

The Samaritan Project, Inc., will provide excellent programs and services for adults, youth and families in the greater Milwaukee community to acquire the education, skills and resources necessary to build self-sufficient and prosperous lives.

We will achieve our vision by:

- Equipping adults and children with the skills needed to negotiate the changing times.
- Offering programs and services for the enrichment, enhancement, enlightenment, and empowerment of the individual.
- Improving the quality of life of participants and building confidence and self-esteem by strengthening the family unit.

Over the years, Samaritan has generated programs and services for underserved families, based upon identified needs within the Milwaukee community. These programs have ranged from GED programs, in collaboration with Milwaukee Area Technical College, to a teen sex education program in collaboration with the United Way of Greater Milwaukee. Samaritan partnered with the Milwaukee Workforce Investment Board and the Department of Corrections to provide job training opportunities for their clientele, while developing and sponsoring Job Readiness seminars for unemployed and underemployed persons as well. As our motto expresses, "one ready and generous in helping those in distress," Samaritan has availed itself to the needs of the community it serves. Our professional staff has the ability to adapt to the demands of new initiatives, through professional development training, and/or soliciting others from varied professional backgrounds to facilitate the instruction needed for special programming.
