Subject: Proposed Data Center

Some people who received this message don't often get email from michaela.d.koepke@gmail.com.
[Learn why this is important](#)

Hello,

I am writing to make it known how extremely concerned I am at the prospect of the proposed construction of a data center in Midtown. In many other places throughout the country, data centers have been wreaking havoc on local ecosystems and communities, polluting the air and waterways and forcing people out of their homes. I am deeply worried this will be more of the same, putting the promise of temporary profit over the long term physical and financial well-being of Milwaukee residents. We deserve safety, clean water, and clean air, and I am asking that everyone in a position to make decisions that affect the citizens of Milwaukee listens to us when we voice our concerns about this proposal.
