Project Title: 2010 Consolidated Contract

Grantor Agency: State of Wisconsin Department of Health Services

Grant Application Date: N/A-Continuation

Anticipated Award Date: January 2010

Please provide the following information:

1. Description of Grant Program/Project (Include Target Locations and Populations):

The Consolidated Contract includes six (6) initiatives, each having a specific purpose and target population. The six initiatives are Maternal and Child Health, Early Identification and Detection of Pregnancy, Preventive Health Grant, Childhood Lead Detection Grant, the Immunization Action Plan Grant, and the Well Women Breast and Cervical Cancer Control Program,

The objectives for the **Maternal and Child Health Grant** are to improve birth outcomes and childhood development through an intensive home visiting program (Nurse Family Partnership), to focus on teen pregnancy and contraception through the No Condom! No Way! Campaign; and to build a men's health center.

The primary focus of the **Early Intervention and Detection of Pregnancy** is to effectively initiate discussions about and access to contraception, emergency contraception and family planning with clients; effectively screen and presumptively enroll eligible patients into the Family Planning Waiver (FPW), as well as assist clients in completing the continuous enrollment forms, and raise public awareness of the FPW; offer pregnancy tests; provide follow-up and short term care coordination.

The **Preventive Health Grant** will work on nutrition and men's health initiatives that conform to the Healthiest Wisconsin 2010 State Health Plan and are consistent with the Prevention Health and Health Services Block Grant guidelines.

The Lead Detection Grant in combination with City and Centers for Disease Control funds support comprehensive and coordinated service delivery to lead-poisoned children and their families. This particular grant supports community outreach, nursing care management, and abatement technical services.

The primary focus of the **Immunization Action Plan** is to increase immunization rates of children served by the Milwaukee Health Department to 90% by the year 2010. In addition, the Immunization Program plans to continue to utilize the tracking and recall system through the Wisconsin Immunization Registry for children who are behind in their immunizations for their age and to assure that children served at the MHD will be assisted in locating their private providers name and location for follow-up medical services.

2. Relationship to Citywide Strategic Goals and Departmental Objectives:

All of the programs relate to the City-wide goal to enhance the health and well-being of Milwaukee residents by improving access to preventive health care; promote healthy behaviors; assure safe and healthy homes, businesses and neighborhoods; reduce racial and ethnic health disparities; and improve the quality of healthcare information and coordination of services.

3. Need for Grant Funds and Impact on Other Departmental Operations (Applies only to Programs):

The consolidated contract funds positions and services needed to sufficiently administer the programs. While some City funds are currently used to support some of these initiatives, they are considered as match funds for the grantor. These functions could not be achieved without the grant funding supplementing the City funds. Community-wide, these grants work to improve the health of Milwaukee's citizens.

4. Results Measurement/Progress Report (Applies only to Programs):

Outcome measurements are included as an addendum to the contract issued by the State.

5. Grant Period, Timetable and Program Phase-out Plan:

The grant period for the Consolidated Contract is January 1, 2010 through December 31, 2010.

If funding was not received, the positions paid by this contract would be eliminated and the ability of the Health Department to provide these services would be greatly diminished.

6. If Possible, Complete Grant Budget Form and Attach to Back.

See attachments.
