Jackie Martinez, HACM's Section 8 Program Director, reported on the Section 8 Utilization metrics summarizing the documents provided with the agenda. Ms. Martinez noted that staff have been challenged with obtaining documentation from families, which is delaying the leasing at some sites. She also stated that staff continue to work diligently with families via phone, email and mailings, emphasizing to residents the importance of providing needed documentation to complete the leasing process. In addition, weekly calls with the development managers have been successful in further expediting the leasing process.

Greg Anderson, Travaux's Vice President of Asset Management, summarized the Recovery Plan Monthly Update included with the agenda, along with the metrics for the Public, Affordable, and Market Rate Housing Occupancy and Work Order reports. Director McCarthy requested that last month's data be included with future work order reports, so the Board can compare them month-to-month. Directors discussed the value of an Asset Management Strategic Plan, and whether that was within the purview of Travaux, as the instrumentality. President Hines mentioned that HACM had begun the first stages of such a plan just as the pandemic began and the number of Commissioners on its Board decreased, which together put the plan on hold. Now, as it is hoped that the number of Commissioners will be increasing soon, President Hines is encouraged that the HACM Board will be able to revisit the development of the plan and he will keep the Travaux Board of Directors informed of the plan's progress. Mr. Anderson answered the Directors' questions regarding code violations, DNS inspections, and changes to the work order reports.

President Hines concluded his report.
