

1. Describe the proposed ordinance or resolution. File number: _____

2. Identify the anticipated equity impacts, if any, of this proposal.

Sexually transmitted infections (STIs) disproportionately affect Black/African American residents in Milwaukee, followed by other racial and ethnic minority communities. This grant enables us to provide essential testing, treatment, and education services to those most vulnerable to STI-related health disparities.

3. Identify which minority groups, if any, may be negatively or positively impacted by the proposal.

This proposal supports our ability to deliver essential services to the populations most impacted by sexually transmitted infections, particularly Milwaukee's Black community and other communities of color who experience disproportionate STI rates. The grant also expands our reach beyond traditional clinical settings, allowing us to provide testing to individuals in the community who may not have access to a health center.

4. Describe any engagement efforts with minority communities potentially impacted by the proposal.
5. Describe how any anticipated equity impacts of the proposal will be documented or evaluated.
6. Describe strategies that will be used, if any, to mitigate any anticipated equity impacts.
