## Summary

"If you do what you love, you'll never work a day in your life." - Marc Anthony -

As an Account Manager at Sign Effectz, I focus on uniqueness. That's because you have to bring something to the table no one else can if a customer's sign is going to get noticed. When it comes to custom signage, getting noticed by customers is high on the priority list.

When I'm not at Sign Effectz, you can catch me fully immersed in my other gig – Wing It! / Good Land Wing Co, working out, or kayaking (though not too often in the colder months).

If you're ever interested in how I could help increase your business visibility and brand or when the next featured sauce is coming out, feel free to shoot me a message. I am always happy to connect.

Sign Effectz, Inc.  
Account Manager  
December 2015 - Present

1827 W Glendale Ave, Milwaukee, WI 53209

I help businesses small and large achieve great visual branding by providing quality signs and sun control. That includes informing them about the creativity of our AFX Division. My primary responsibilities are to: build and maintain customer relationships, prospect for new business, and keep our Customer Relationship Management (CRM) system up to date.

Sign Effectz, Inc.

Fabricator

June 2012 - January 2016 (3 years 8 months)

1827 W Glendale Ave, Milwaukee, WI 53209

Going into fabrication and staying in it for as long as I did really got me into the sign world. It gave me a lot of respect for the hand made quality signs we make at Sign Effectz, it also taught me a fair amount about - welding, constructing, wiring, servicing, and installing various types of Signage.
