To Whom It May Concern,

I am writing this email to voice my concern and opposition to a Data Center proposed for the Midtown Center on N 60th Street in Milwaukee. There are direct correlations with data centers and noise, air and water pollution. I am concerned for the increased use of water needed, as well as the wellbeing of the folks that live in the area. We do not need a data center in Milwaukee. Data Centers are a growing public health crisis and we do not need them in our community.

Thank you,

Kelli Rediske
