

NSF Certified Drinking Water Treatment Units, Water Filters, Standard 53 (Health Effects) for Lead Removal bear this mark:

Click on “SEARCH CERTIFIED PRODUCTS AND SYSTEMS” at www.nsf.org, in the category of Consumer and Retail Products, Water Filters.

Some of the filters that are certified for removal of lead from tap water are noted below.

There are pour-through “pitcher” style filters that are certified for removal of lead from tap water:

- www.zerowater.com
 - 23-Cup Dispenser
 - 6-Cup, 8-Cup, and 10-Cup Pitchers

There are faucet-mount filters that are certified for removal of lead from tap water:

- www.culligan-store.com/product_detail.asp?T1=CUL+FM-15A
 - Model CUL FM-15A
 - Model CUL FM-25A
- www.brita.com/faucet-systems/basic/
 - Model SAFF-100
 - Model FF-100
- www.pur.com/water-filtration/faucet-water-filters
 - Model FM-2000B (Basic Faucet Water Filter)
 - Model FM-3400B (Advanced Faucet Water Filter)
 - Model FM-9000B (Advanced Plus Horizontal Water Filter)
 - Model FM-3333BNM (Baby Water Filter)

There are filters described as “counter-top connected to sink faucet” that are certified for removal of lead from tap water. Most are not recommended for “pull-out” faucets.
