Subject: Public Works Committee 1/27/21 - Support for Resolution #200887

Hi Molly,

I'm unsure if you are still accepting public comments for the Public Works Committee meeting tomorrow, January 27, 2021, but on the chance that you are, **I'd like to submit my support for Resolution #200887**. I am a Milwaukee resident living in Aldermanic District 3. As an architectural historian, I have been researching twentieth century Milwaukee architecture and design. Through this research, I have become aware of the breadth and significance of Alonzo Robinson's work throughout our city. The recognition of his presence in local architectural history and his contributions to our built environment is long overdue. I strongly urge the members of this committee to support Resolution #200887 and rename the Milwaukee Fire Department Administration Building after Alonzo Robinson.

Thank you,
Kelsey Kuehn
