You don't often get email from pkonez@ameritech.net. [Learn why this is important](#)

Dear Commission Chair and members,

As a recently retired attorney who worked for over thirty years on behalf of low income people in the City of Milwaukee, including issues affecting criminal justice, housing and neighborhood strength and diversity, I urge you to support locating the proposed juvenile facility at the Clinton Avenue site. I stand with MICAH and other organizations which have worked hard to address the need for humane and community-connected corrections for Milwaukee youth and citizens.

It is unfortunate that we have many Milwaukee youth detained in correction facilities at all, but to the extent that is necessary, it is important for transparency, and for connection to family and community, that Milwaukee youth be in Milwaukee. No neighborhood is perfect and local opposition and fear is to be expected. However, the Clinton Avenue site has been identified as the best available solution and has the advantage of being accessible, including by public transportation, by Milwaukee families who will need to visit their detained children.

Thank you for considering these comments.

Peter M. Koneazny
