Re: Letter of Commitment for DE-EE0007069

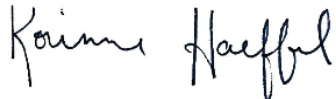

Dear Andrew:

Wisconsin Green Building Alliance (WGBA) is pleased to support the City of Milwaukee's proposed *Location, Location, Efficiency! (L.L.E!)*. The City of Milwaukee has a proven track record of successfully implementing innovative energy efficiency and renewable energy programs seeded with EERE funds.

Wisconsin Green Building Alliance (WGBA) also has a proven track record of creating change in commercial buildings. Pending final contract negotiations, we are prepared to contribute \$60,000 of cost share in the form of staff time.

We look forward to supporting this project and helping reach our mutual goals of energy efficiency, and more competitive commercial buildings.

Sincerely,

Korinne Haeffel  
Executive Director  
Wisconsin Green Building Alliance

Korinne Haeffel, LEED AP, Executive Director  
Wisconsin Green Building Alliance
