RE: C.I. File No. 01-S-384

Dear City Attorney:

I raise objection to your denial of my claim that the city accept liability for my loss due to flooding in my basement caused by a city tree clogging the city sewer. The reason is straightforward: I can not be responsible for sewer damages under or near the city street. The city has to either tear out part of the street and replace the pipe(s) or simply cut down the city tree (and replace it with a smaller tree if desired). I am still requesting the city pay my claim of \$3,072.43.

Thank you.

Sincerely,

Charles Tripi

 CITY CLERK

I am requesting the City to pay for the damages caused by the City tree in front of my house. The flood happened from the roots of that only tree in front of my house clogging the drain and caused to flood my basement to about 6" of water. Also, I want the City to cut that tree down. This recent summer, there was a City crew in our area cutting down many of those trees, but they skipped mine, which was just about the same size as the other trees they were cutting down. There were many other minor damages, but I am requesting the City to reimburse for the major damages and the sewer service cost. Enclosed are the receipts and some itemized estimates. Two things that I didn't get documented estimates are the Dinning Table and the Oak Wood. The price I got for the Dinning Table was I went to the Antique Store and saw a simpler table (it was a Cherry while mine was the Black Walnut). The Saw Retro Fit Kit was part of a recall program.

The flood happened on 10/23/2001 sometime during the day. I found out when I went downstairs at about 5:45pm. My wife called Roto-Rooter (sewer-drain service) about 6:00pm and they said it would charge us \$600 if they were to come out that evening, otherwise \$135 if during business hours (e.g., next day so we can pay \$135 instead of \$600).
