Subject: Data center in Sherman Park

Some people who received this message don't often get email from charhueneker@yahoo.com. [Learn why this is important](#)

Hello,

Data centers do not benefit our communities. They raise our water bills, decrease our water quality, create sound and thermal pollution and do not create permanent careers for anyone. All data centers do is harm our communities for the benefit of the ultra-wealthy. Do not sell us out. We do not want this.

Thank you,

Char
