Subject: Say no to data centers

Some people who received this message don't often get email from sailorheatherr@gmail.com. [Learn why this is important](#)

As a Milwaukee resident I oppose all data centers. Water should be for the people.

Please say no to all data centers and protect the great lakes, our city and the people.

Unless they are going to solve all the city budget issues, return 100% of the water clean and safe, and pay extra for electricity.

But seriously, humans are better without AI. No data centers.
