Subject: NO DATA CENTERS IN MKE

Some people who received this message don't often get email from alexafullerton@yahoo.com. [Learn why this is important](#)

I am a resident of Milwaukee County and I'm writing to say NO to the current data center proposed on N. 60th Street. The health impacts alone are enough to say absolutely not. These data centers are known to cause air pollution, increased noise level and use insane amounts of water and electricity which would cause electricity bills to sky rocket. This would be a huge set back for the city and all of the residents in it. We want community centers, youth programs, local businesses and things that will bring value to the community, not cause harm. Say NO to data centers in Milwaukee.
