RE: Damage to car after hitting pothole -C.I. File No: 08-S-663

We would like to appeal the decision held forth in the attached letter.

We don't understand the relevance of "filling a pothole on July 14th" and "Excavation done by the Wisconsin Gas Co." to our claim.

The fact remains that a very large pothole, that had not been repaired, caused major damage to our tires and wheels. We have photos of the pothole and it being repaired after the damage was done.

Please notify us when you have set up a hearing date.

Thank you and best regards,

Re: Damage to my car after hitting a pothole

On the afternoon of June 21st, 2008, while driving down Van Buren street in Milwaukee...my wife hit a pothole which caused 2 flat tires on our car. The car could not be driven and had to be flat-bedded to the dealership.

All 4 tires and 2 rims had to be replaced as a result of the damage done by the pothole. The pothole was very deep and hard to see because it was near the center line of the street.

We immediately called the police and the Dept. of Public works so they could fill the pothole and avoid any further accidents. The pothole was across from 1535 Van Buren.

The following details the cost of repairing the damage:

Balance Tires	\$120.00
Front Alloy wheel	\$855.00
Rear Alloy wheel	\$920.00
2 front tires	\$542.00
2 rear tires	\$618.00
Misc. acces.	\$22.00
Wheel locks	\$71.00
Valves	\$40.00
Chassis alignment	\$139.95
TOTAL	\$3327.95

All the tires had to be replaced because this car has different size Tires on the front and back. The the new and old tires could not be rotated.
