

February 22, 2022

To the Honorable
Common Council
City of Milwaukee

Dear Common Council Members,

In order to be eligible for future grants under the State of Wisconsin's Department of Transportation (WisDOT) Harbor Assistance Program (HAP), an annual update of the Port's Harbor Development Three-Year Statement of Intentions is required to be submitted to WisDOT by April 1st of each year.

The enclosed update to the Port's 2022 Statement of Intentions is herewith submitted for the Common Council's approval. The Statement of Intentions was unanimously approved by the Port's Board of Harbor Commissioners (BHC) on Thursday, February 10, 2022.

WisDOT uses this listing of potential future projects for its internal budgeting purposes and planning. The Statement of Intentions is neither an application for funding nor does it represent, in any way, a financial commitment by the City. Project descriptions and proposed dates are attached.

Port staff and the BHC respectfully recommends that the Common Council adopt the attached 2022 Statement of Intentions. With the Council's approval, the Port will transmit the Statement of Intentions to WisDOT before April 1, 2022. The Statement of Intentions is therefore placed before your Honorable Body for its ratification of the Board's action by adopting the enclosed resolution.

Respectfully submitted,

Adam Tindall-Schlicht
Director
Port Milwaukee
