Recommendation: The garage entrance is located in a very congested area. The Metro Market has traffic entering their parking garage off Juneau St., the USPS has street side mail drop, a parking ramp off Juneau to the roof of the USPS and MCTS has two bus routes operating on Juneau and basically Juneau is just a single lane street with parking on both sides. USPS customers are always parking on both sides of the street most of the day. If the parking entrance could be moved to north end of the building or even have an entrance off the parking area on the north end (former Pratt St).

Thank you,  
Darrel Donahue  
1219 N Jackson St, 108
