Roofle was contracted to put on Owens Corning Duration asphalt shingles 50 year warranty. These are to go on the back of the house, north-side overhang, south bay window and the front porch. (All areas that have current asphalt shingles).

The front of the house is slate. They were not supposed to remove that. However, they did by accident start to remove it and I stopped them. The chief operating officer, Travis Harvego, (303 8566994) wrote "the plan is we are going to replace the front slate roof for you with no cost to you. We will dry in the front of the roof and when we get the approval from the historical society we will put new slate back on the front side. In the meantime we will get all of the rest of the parts completed on the house with shingles."

I sent an email to timadkin yesterday with pictures of the house with the damage done to the slate. There are attachments outlining the contractor agreement, the material being used, statement that the ASPHALT shingles be Colonial Slate. I picked that to coordinate with the front slate roof. The email with this information was sent to Tim yesterday on 5/08. It is front denisianjackson@outlook.com
