

October 2022

Petition to the Milwaukee Historic Preservation Committee

Setback requirements are intended to present an "openness" of streets or neighborhoods. Exceptions to the required setback requirements work contrary to that design element of a neighborhood.

The undersigned residents of the Northpoint Historic Neighborhood desire to preserve the open, historic feel of Terrace Avenue. We object to the plan for a new home proposed to be constructed at 2409 Terrace Avenue with a 23 foot setback. We request that the Historic Preservation Committee require modification of the plan to be consistent with the 30 foot front yard setbacks of the existing historic homes on the West side of Terrace Avenue to keep the vista of Terrace Avenue open for all residents. Thank you.
