Subject: Milwaukee Theater

Good afternoon,

I understand that some developers are looking to block the award of the Milwaukee Theater with historic designation.

Failure to award the theater and the UWM Panther Arena historic designations would be a monumental mistake.

Please do not succumb to the false promises of those who say the buildings do not deserve preservation and that new developments would be better for everyone. These claims are driven by self-serving motives and will only serve to drive profit for those involved.

It is imperative that we preserve our built heritage. No new building could replicate the beautiful architectural design and quality of these buildings. It is up to you to ensure that they remain among the collection of our city's remarkable buildings from the past. Milwaukee has a treasure trove of these fabulous buildings. Many cities have frittered these treasures away.

Don't make another mistake, as we did with the Randolph Hotel!

Sincerely,

Tim Garcia-Brown
