Hello,

My name is Brandon Winkelman and I am emailing in objection to the proposed data center. As we have seen in other states, they are nothing more than resource eating empty promises. They do not create local jobs, they pollute the area they occupy, (both in noise and the health of local residents) and they adversely affect the energy prices for everyone in the city. I was born and raised in Southeastern Wisconsin, and I have lived in Milwaukee for almost 20 years. This city is our home and deserves to be treated as such. How about instead of pushing the agenda of a bunch of technocrats, we do something to actually serve the people of Milwaukee?

Nobody who's actually paying attention wants data centers being built. Not here, not elsewhere in this state. I pray that you heed the words of your fellow Wisconsinites and do not move forward with this.

Sincerely,
Brandon Micheal Winkelman
