To the Public Improvements Committee

Subject: Resolution to execute conduit easement in vacated North 10<sup>th</sup> Street  
between West Winnebago Street and West Highland Avenue

Dear Honorable Members:

As part of the Marquette Interchange Project, several bridges over IH-43 will be removed and reconstructed. The City currently uses these bridges to support conduit packages over IH-43 thus providing vital City communications links in this area. The conduit package has to be re-routed before these bridges can be razed. To that end, the conduit package is proposed to be re-routed to vacated North 10<sup>th</sup> Street between West Winnebago Street and West Highland Avenue.

This resolution is recommended for adoption which authorizes the proper City officials to execute an easement agreement between the City and Juneau Avenue Partners, LLC to allow City conduit and manholes to be placed in vacated North 10<sup>th</sup> Street between West Winnebago Street and West Highland Avenue.

Very truly yours,

Jeffrey S. Polenske, P.E.  
City Engineer

James P. Purko  
Director of Operations
