RE: Renaming Segment of North Lyon Street to North Milwaukee Street

Dear Mr. Owczarski:

We are developing North End Phase V, an 88-unit luxury apartment community that represents the final phase of The North End. The development is located at the northeast corner of Water and Lyon Streets. We are requesting that the segment of North Lyon Street from the intersection of North Lyon Street and North Milwaukee Street to North Water Street be renamed to North Milwaukee Street. The segment is depicted on the attached drawing.

This segment of North Lyon Street should be renamed to North Milwaukee Street because the adjoining street across Water Street is named North Milwaukee Street. If our development has a North Lyon Street address, potential residents and visitors may be confused on how to reach our development given the discrepancy between street names on either side of Water Street. We are the only property owner that abuts this segment of the street, so we would be the only property whose address would be impacted.

Please contact me if you have any questions.

Sincerely,
USL Land, LLC
