

February 21, 2002

To: The Honorable, The Common Council

Subject: Resolution to apply, accept and fund a digital cadastral mapping grant

Dear Members:

I am asking for your approval of a substitute resolution for grant funds. The substitution will provide for additional Wisconsin Land Information Board (WLIB) 2001 grant distributions of \$96,675.00 to be used to electronically correct and improve our digital cadastral mapping product. The cadastral maps which show recording property boundaries, subdivision lines, taxkeys, lot numbers and other related details are currently not up to National Map Accuracy standards. This grant is to be added to similar grant applications submitted and approved for WLIB 1999 grant distribution and WLIB 2000 grant distribution.

This grant will provide the funding and resources to improve our map products and provide the City with a base map that will be used by all departments in the City far into the future.

Sincerely,

Randolf A. Gschwind
Chief Information Officer
