## Areas of Expertise

Here are my areas of expertise, which I will use to provide you with customized recommendations that will help you plan for your financial future.

- **Business Risk Management**

As a business owner, you know that your presence on the job is crucial. Securing the right kind of business protection can be complicated. Using my expertise in business risk management from Northwestern Mutual, I can help you protect your business to ensure its future.

- **Retirement Planning**

Perhaps one of the greatest financial challenges you will face in your lifetime is preparing adequately for your retirement. I will help you create a plan that will assess your current financial situation, determine the retirement lifestyle for your future, review the many options available, and put solutions in place to help ensure you achieve the retirement of your dreams.

As a representative of Northwestern Mutual I am also able to offer access to the following:

- **Disability Income Planning**

Disability insurance protects one of your most valuable assets-your ability to earn an income. A disability could suspend or terminate your income for an extended period of time. It may force you to close your business. With my expertise in disability insurance, I am able to recommend disability insurance products from Northwestern Mutual.

- **Employee and Executive Benefits Planning**

Employee benefits are an important part of the growth of your business. Benefits such as health insurance, pension plans, group life and disability income plans make up the compensation package that helps ensure continued employee satisfaction and well-being within your company. Designing an employee benefit approach can be a complicated, technical and time-consuming matter. Working with a specialist who offers access to comprehensive employee benefit services through local and independently owned companies, provides a number of advantages, including experienced professionals with access to top providers and a wealth of benefit choices tailored to meet your business' ever changing needs.

- **Life Insurance Planning**

Many people realize that they need life insurance. And, many people have opinions about what type of life insurance they prefer. I regularly help people determine how much life insurance they need and what types or combination of types of coverage are best suited to help them further their own objectives. A well constructed life insurance policy can be a valuable part of your overall financial security plan. I will help you look at this in the context of your overall financial security plan and help you determine what makes the most sense for your particular situation.

- **Long Term Care Planning**

After a lifetime of work and proper preparation, a secure retirement can be your reward. That security will only be as strong as your ability to stay healthy. Most people would agree that their most important asset is their health. That is why it's important to ensure that if you are ever faced with an extended illness, you will receive the kind of care you need. Together with our specialists, I'll assist you in determining your long-term care needs and design solutions tailored to your unique situation.

- **Investment Strategies**

Without a coordinated investment strategy, it can be difficult to build an effective investment portfolio that helps meet your financial needs. As a Registered Representative of Northwestern Mutual Investment Services, LLC (NMIS), I can offer you access to a wide range of investment products and services. I will work with you to develop investment solutions aimed at meeting your financial objectives.
