Project/Program Title: Bioterrorism Grant – Cities Readiness Initiative (CRI)

Grantor Agency: Centers for Disease Control and Prevention (CDC) through the Wisconsin Department of Health Services (DHS)

Grant Application Date: N/A

Anticipated Award Date: July 1, 2023

1. Description of Grant Project/Program (Include Target Locations and Populations):

The Cities Readiness Initiative (CRI) is a program designed to enhance preparedness in the nation's largest population centers to effectively respond to large public health emergencies needing life-saving medicines and medical supplies. This includes increasing capacity to develop, test, and maintain plans to rapidly receive medical countermeasures from the Strategic National Stockpile and distribute them to local communities.

2. Relationship to City-Wide Strategic Goals and Departmental Objectives:

This grant is consistent with the departmental strategic goal of increasing public health preparedness for responding to emergencies.

The objectives of the Emergency Preparedness Environmental Health (EPEH) program include:

- Develop and maintain emergency response planning
- Ensure access to public health expertise/capacity to investigate & contain/mitigate public problems
- Enhance public health information and warning
- Enhance community resiliency to recover from a disaster
- Reduce workplace related injuries or incidents
- Develop and maintain required occupational health and safety plans, policies and procedures

3. Need for Grant Funds and Impact on Other Departmental Operations (Applies only to Programs):

Grant funding will allow MHD to develop, test, and maintain emergency response plans related to receiving medical countermeasures from the Strategic National Stockpile (SNS) and distributing to City of Milwaukee residents in an emergency.

4. Results Measurement/Progress Report (Applies only to Programs):

Performance measures for the Emergency Preparedness Environmental Health (EPEH) program include:

- Number of chemical storage plans reviewed as part of the Local Emergency Planning Committee (LEPC)
- Required emergency preparedness exercises completed
- Required Strategic National Stockpile (SNS) drills completed
- Points of Dispensing (POD) plans reviewed and updated within the last 12 months
- Percent of staff who have completed required Incident Command System (ICS) training
- A risk communication plan reviewed and updated within the last 5 years
- Percent of staff who responded to quarterly emergency notification exercise
- A continuity of operations / continuity of government plan has been developed and reviewed in last 5 years
- A surge capacity plan that has been reviewed and updated within the last 5 years
- Public health emergency response plan (PHERP) reviewed and updated within the last 12 months
- Percent of staff likely to wear respiratory protection for work duties completing respiratory fit testing
- Percent of inspectors completing required radiation safety training
- A bloodborne pathogens exposure control plan (ECP) reviewed and updated within the last 36 months
- Field safety policies reviewed and updated within the last 36 months
- A radiation safety plan reviewed and updated within the last 36 months
- A respiratory protection plan reviewed and updated within the last 36 months

5. Grant Period, Timetable and Program Phase-Out Plan:

Grant period begins July 1, 2023 and ends June 30, 2024.

6. Provide a list of Subgrantees:

N/A
