Director

**Daniel T. Alexander**  
Homeland Security Director

April 30, 2007

The Honorable Common Council  
Milwaukee City Hall  
200 E. Wells St., Room 205  
Milwaukee, WI 53202

The Honorable Common Council:

The City of Milwaukee is in the beginning stages of implementing a video surveillance project that is designed to improve public safety and enhance the city's critical infrastructure protection capabilities. This initiative has required a great level of cooperation across various levels of government and City departments.

Because of this project's impact on public safety in the City of Milwaukee, I have already briefed the President of the Common Council and the chairpersons of the Finance and Personnel and Public Safety Committees. With the sponsorship of those members, I would very much appreciate the opportunity to provide a status update to the Public Safety Committee on May 17, 2007, and to the Finance and Personnel Committee on May 23, 2007.

As always, I am happy to meet with any Council member to discuss this initiative and look forward to continued interaction as this project develops.

Sincerely,

Daniel T. Alexander  
Homeland Security Director  
City of Milwaukee
