Hello, I am emailing with concerns about the potential new data center in Midtown. This is an absolute joke and waste of my tax dollars. This city has a plethora of issues and taxes. We're still paying off stadiums and a useless down town trolley. I'm not sure how much in taxes, this city is expecting its hard working citizens to pay, but this is ridiculous. We can't fix any roads, but you want me to waste another dollar on a useless data center. If you decided to put something useful back maybe the GROCERY STORE that was closed, I'm sure the community would be on board. However, this data center is another frivolous waste in our community, and it's NOT supported. Please do better, and actually work to BETTER this city, instead of using its as a cash grab at every opportunity.
