

Mar 1, 2023

To Whom It May Concern:

On Feb 27, 2023 around 3:45pm when I returned back to my residence at 5001 North 64th Street, Milwaukee, WI., I found my basement full of water. There had been rain and snow melting during the day. The water was entering the basement from a sewer drain and was as high as the last step of the basement. I also contacted Allstate and Vinebrook Homes with these concerns as well. Allstate informed me, Trina L. Dennis, that they will not cover my damaged items. I contacted Vinebrook Homes on February 27, 2023 to inform them of the water in the basement due to it raining all day. They visited the residence and never returned. I contacted the City of Milwaukee on February 28th, 2023 and a city worker visited the residence. He informed me to fill out a claim against the City of Milwaukee. I do have a list and pictures of my damages:

Rugs (2)	\$150
Suitcases (2)	\$150
Deep Freeze	\$250
Washer/Dryer	\$1,350
Humidifier	\$100
TV 65, 43	\$1,000
Computer, Stereo System and Speakers	\$2,000 together

Sincerely,

Trina L. Dennis,
