Re: Technical Corrections to the 2006 Positions Ordinance

In reviewing the Library's 2006 Positions Ordinance it has come to my attention that the following correction needs to be made to bring the ordinance into compliance with our 2006 operating budget:

- Under Central Library Decision Unit, Central Library Services Bureau, Central Library Services Pool, change Library Reference Assistant from "1" to "2" positions.

The two positions reflect our operating strength in 2005. No proposed reduction in staffing level in this position was made in the library's budget, nor was a reduction included in the adopted 2006 budget. The designation from "2" to "1" appears to have been inadvertently entered at some point after the library submitted its proposed budget.
