**Subject:** No 11 story condo

Please do not allow rezoning for the 11 story condo proposed on the east side.

For one thing there are plenty of condos that are not selling on Commerce Street, downtown and in other areas. The housing market is in a "correcting" period.

I live on the 2800 block of North Hackett Ave and have to look at the "modern" eyesore that the city allowed to be "renovated" in the middle of my block. We have a constant stream of drivers and walkers gawking at the out of place building. My young son asked me if we could go "swimming at the new hotel" they were building across the street....that's how ridiculous it is.

Build something that fits the neighborhood. An eleven story building, albeit modern or traditional, still doesn't belong in this historic neighborhood.

We have a zoning rule in place which you are considering waiving so a developer can make more money. While I prefer any building fits with the neighborhood, my biggest complaint is with waiving the zoning rule.

Please do not allow rezoning for the 11 story condo proposed on the east side.
