I. PROMISE ZONES

In 2013, the City of Milwaukee applied for the federal Promise Zone designation. The concept for the federal Promise Zone initiative began in 2010 with President Barack Obama's call to create "Promise Neighborhoods" across the United States. This U.S. Department of Education program was aimed at improving the educational outcomes of students in distressed urban and rural neighborhoods through "cradle-to-career" services. Funding for the initiative increased from \$10 million in 2010 to \$30 million in 2011 and \$60 million in 2012.

No new grants were awarded in 2013, but on January 9, 2014, the president extended this idea by announcing 5 additional "Promise Zones" in San Antonio, Los Angeles, Philadelphia, southeastern Kentucky and the Choctaw Nation of Oklahoma. Fifteen additional Promise Zones will be announced by the end of Obama's term, with the goal of addressing poverty and income inequality by providing local governments, businesses and agencies "aid in cutting through red tape to get access to existing resources."

Although no new federal funding will be available for Promise Zones, federal agencies will engage directly with local leaders to coordinate resources and expertise for job creation, economic activity, violence reduction, increased educational opportunities and developing private investment.

Only communities previously selected to participate in one of a related set of programs were eligible to apply for the first round of Promise Zone designations. As a recent recipient of the Byrne Criminal Justice Innovation grant, the City of Milwaukee was eligible to apply and did. Of the 31 applicants for a Promise Zone designation, 12 were selected as finalists.

Although Milwaukee was not a finalist for this round, the City is currently drafting its application for subsequent cycles of Promise Zone designation (the deadline for the second round is November 21, 2014). To apply to be a Promise Zone, applicants must be a local government or nonprofit organization. Potential Promise Zones must also:

- Encompass one or more census tracts across a contiguous geography.
- Have an overall poverty rate over 33 percent.
- Encompass a population of at least 10,000 but no more than 200,000 residents.
- Have the demonstrated commitment of local leadership, including mayors.

This report is not a part of the City of Milwaukee's Promise Zone application, but is based on a similar premise: the premise that area revitalization can be realized more fully through the systematic and cooperative provision of services and the development of a community-wide culture of success.

According to a 2014 press release on President Obama's Promise Zone initiative:

A child's zip code should never determine her destiny; but today, the neighborhood she grows up in impacts her odds of graduating high school, her health outcomes, and her lifetime economic opportunities...It will take a collaborative effort — between private business and federal, state, and local officials; faith-based and non-profit organizations; and striving kids and parents—to ensure that hard work leads to a decent living for every American in every community.

Through the designation of local promise zones, Common Council of the City of Milwaukee hopes to further support this premise and establish a pathway for community revitalization and success.

II. GENERAL DEMOGRAPHICS

Combined, the Milwaukee Promise Zones have a population of 93,971 residents, with 42,094 (44.8%) of these residing in the Near South Side zone, 21,771 (23.2%) residing in the Division/Harambee zone, 16,224 (17.3%) residing in the Greater Old North Milwaukee zone and 13,882 (14.8%) residing in the Washington Park zone. Maps detailing area boundaries are provided in the appendix.

Total Population

Population Age

Median Age

Population by Ethnicity

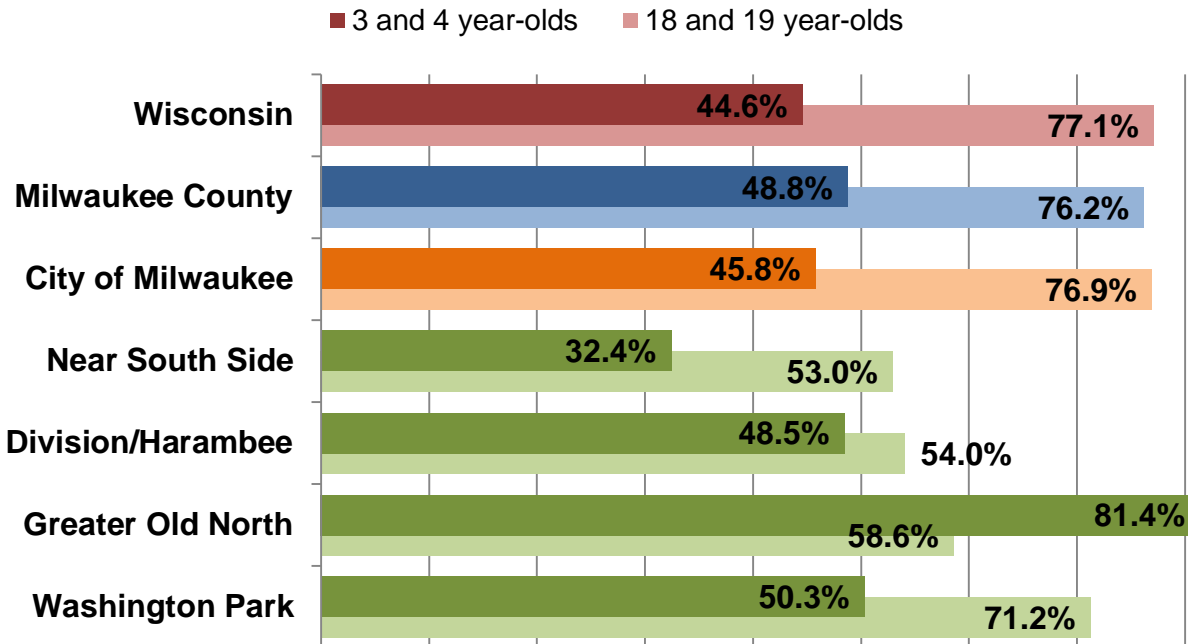

Household Composition

III. EDUCATION

% Enrolled in School

Educational Attainment, Age 25 and Over

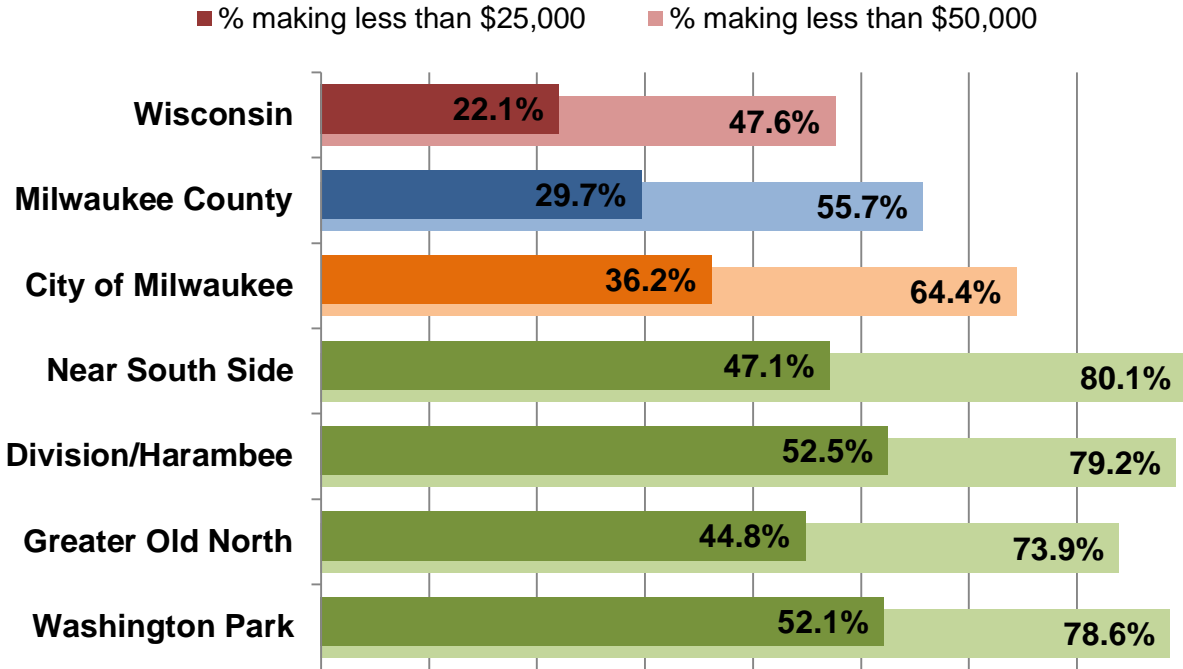

% of 18 to 24-Year-Olds with Less Than a High School Degree
