

January 14, 2004

To the Honorable, the Common Council

Dear Honorable Members:

The 2004 Capital Improvements Program contains a Purpose Account, Public Safety Communications from which funds are allocated to Paving Related Projects, City-wide Telephone System Expansion and Improvements, General Engineering, and Transmission Plant Expansion. This allows the maintenance, expansion and improvement of the City's communication system.

I, therefore, respectfully recommend the adoption of the attached resolution which allocates funds from the parent Public Safety Communications Account to the above mentioned sub-accounts.

Please have this file introduced at the January 21, 2004 meeting of the Common Council.

If you have any questions on the above information, please contact Gerard Froh at extension 3547.

Very truly yours,

Mariano A. Schifalacqua  
Commissioner of Public Works
