

*Electra™ was designed to provide the most light transmission with its narrow profile rails and stiles.*

The Electra™ Model was designed as an alternative to ArmRLite's Titan™ Model to provide the most light transmission with its narrow profile rails and stiles. Since 1958, ArmRLite has been consistently manufacturing the Electra™ Model and has never compromised on the quality of our doors. Because of this, ArmRLite is able to produce replacement sections for any of our welded models, regardless of purchase date.

- Maximum Width of 16'-2"
- Narrow Rails and Stiles
- 20-Year Welded Frame Warranty\*
- Lifetime Residential Warranty\*
